Rationale of the Congress

The high incidence,the cronicity and the high percentage of recurrence of stone disease are strongly involving urological daily activity in the management of clinical lithiasis, requiring the evident needing of meetings where share and validate current clinical practice standards and discuss new strategies in our rapidly evolving field.

The Mediterranean Masterclass on stone disease brings together International and Italian faculties from leading urological centers to debate current and future approaches to urinary stone management. The programme includes 6 scientific sessions , with an update on stone prevention , new technologies and in-depth discussion of complex clinical cases.,in a specific video-lecture session.

Emphasis will be placed on technical surgical details, and on emerging and latest technological innovations in endourology.

"It is a profound honor to welcome you to Naples for the **Mediterranean Masterclass on Renal Stone.**

Nestled between the majestic silhouette of Vesuvius and the deep blue of the Mediterranean Sea, Naples is not merely a backdrop for our congress, but a symbol of resilience, passion, and centuries-old knowledge.

Naples has long been a crossroads of cultures and a historic hub for scientific inquiry. From the ancient University Federico II ' nearby to its modern-day centers of excellence, this region has consistently contributed to the advancement of healing arts.

Beyond the scientific sessions, we invite you to immerse yourselves in the unique energy of the city. Wander through the vibrant alleys of the UNESCO-listed historic center, admire the breathtaking views from the Lungomare, and experience a culinary tradition that is world-renowned.

We hope that the atmosphere of this 'City of the Sun' will inspire fruitful discussions, new collaborations, and lasting memories.

We will wait for you in Naples.

Thursday, 9th July 2026

13.30	Registration and Ongoing Coffee
14.00	Welcome and Introduction C. Imbimbo, Naples (IT) - N. Longo, Naples (IT) - F. Mangiapia, Naples (IT) - D. Prezioso, Naples (IT)
14.30	I Session - Beyond the stone Moderators: <i>D. Del Biondo, P. Fedelini, V. Imperatore, A. Palmieri</i> State of art lecture: climate change, environment and stone risk - <i>F. Mangiapia</i> Stone prevention: idratation and water solubility - <i>D. Prezioso</i> Adjuvant therapy: over the conter supplements to reduce stone risk - <i>A. Saita</i> Metabolic Evaluation: why, when and how - <i>M. Amicone</i> Experts Panel: <i>D. Di Domenico, M. Moriconi, G. Puca, F. Riccardo</i>
15.30	II Session - Rirs focus on Moderators: <i>M. Garofalo, S. Micali, R. Sanseverino</i> Ureteral access sheats (UAS): when to use it and wich one to choose? - <i>C. Cracco</i> Single use flexible ureteroscopes: characteristics and indications - <i>S. Proietti</i> RIRS: Intra-Early and postoperative complications - <i>M. Di Marco</i> Predictors and treatment of Ureteral Strictures after Retrograde Ureteroscopy - <i>A. Crisci</i> Urine culture, antimicrobial profilaxis and stone culture - <i>G. Mazzon</i> Experts Panel: <i>F. Bottone, M. Di Martino, C. Santonastaso, G. Sessa</i>
16.50	III Session - New Technologies for renal stone treatment: state of art Moderators: <i>A. De Lisa, F. Mangiapia, C. Scoffone, D. Prezioso</i> Laser technologies: the importance of peak power and pulse modulation - <i>O. Traxer</i> Intrarenal pressure: why and how to measure it? - <i>S. Choong</i> In scope suction technology - <i>K. Sarica</i> Flexible and navigable suction acces sheaths - <i>A. Skolarikos</i> Experts Panel: <i>M. Capece, A. Rocchegiani, L. Romis, M. Stizzo</i>
18.10	IV Session - PCNL Moderators: <i>G. Di Lauro, R. Giannella, P. Verze, F. Uricchio</i> How do you make a good puncture - <i>A. Bosio</i> Energy source in pcnl/ecirs: Laser vs Pneumatic Lithotripsy. Showdown!?! - <i>G. Giusti</i> Suction in Pcnl: does it improve outcomes? - <i>L. Cormio</i> Should Suction Redefining Ureteroscopy and PCNL Practices? - <i>A. Celia</i> Experts Panel: <i>U. Amicuzi, L. Napolitano, G. Iapicca, L. Pucci</i>
19.30	Session No ECM - Naples, Campania and Mediterranean area as central strategic hub for the pharmaceutical and healthcare economic politics <i>E. Bianco, P. Buono, M. Casillo, G. Manfredi, A. Postiglione, L. Raia, R. Topo, U. Trama</i> Presenter: <i>Chiara del Gaudio</i>
20.30	Conclusions

Friday, 10th July 2026

08.30	Ongoing Coffee
09.00	V Session - Renal stone: thinking about the future’s past Moderators: <i>G. Napodano, F. Pinto, R. Ranavolo, L. Salzano</i> Eswl: rethink it differently - <i>M. Magliocchetti</i> Role of AI in the management of kidney stones - <i>M. Creta</i> Robotic pyelolithotomy for treating large renal stone disease - <i>S. Pandolfo</i> Experts Panel: <i>F. Capone, C. Collà Ruvolo, S. Morra</i>
09.45	Lectio Magistralis History of Urolithiasis: from hypotermic bivalve nephrotomy to micropcnl - <i>V. Mirone</i> Presenter: <i>C. Imbimbo</i>
10.00	VI Session - Renal stone treatment: Fighting Championship Moderators: <i>A. Celia, F. Fusco, N. Longo, D. Prezioso</i> ● Renal stone 1-2 cm Rirs - <i>G. Celentano</i> Mini pcnl - <i>L. Cormio</i> Upper calix supine mini pcnl - <i>M. Cepeda</i> Experts Panel: <i>C. Barba, C. Ciotta, E. Di Mauro</i> ● Renal stone ≥2 cm Rirs (suction in scope) - <i>F. Mangiapia</i> Rirs / suction acces sheaths - <i>M. De Sio</i> Suction mini pcnl - <i>E. Montanari</i> ECIRS - <i>C. Scoffone</i> Experts Panel: <i>G. Cancelmo, F. Forchia, M. Nugnes, M. Ricci</i> ● Staghorn stone Standard pcnl - <i>A. Saita</i> Multi access pcnl - <i>L. D’Arrigo</i> Robotic Pielolithotomy - <i>G. Califano</i> Experts Panel: <i>R. Martino, F. Machiella, M. Marsicano</i>
12.30	Lectures Moderators: <i>F. Crocetto, D. Dente, M. Fedelini, C. Franzese</i> Primary hyperoxaluria type1 (PH1) today: red flags and treatment - <i>M. Raguso</i> HPSC: new strategies for prostate cancer. Comparative evidence and stone risk - <i>D. Arcaniolo</i> LUTS-BPH impact in stone formers - <i>R. La Rocca</i> Experts Panel: <i>C. Bisegna, A. Maffucci, C. Quattrone</i>
13.30	Conclusions - ECM Test
